## Assessment, Regulation and Legislation

All departments are now accredited to the ISO15189:2012 standards for Medical laboratories. On-site assessments occur annually to ensure ongoing compliance. Conformance to these standards and ongoing accreditation remains the prime quality objective and provides reassurance to service users of our ongoing commitment to attaining the highest levels of service quality.

The scopes are available via the UKAS website:

- [Cellular Pathology & Mortuary](#) -UKAS accredited testing laboratory No.9717
- [Clinical Biochemistry and Immunology](#) -UKAS accredited testing laboratory No.8666
- [Haematology & Transfusion](#) -UKAS accredited testing laboratory No.8770
- [Microbiology & Serology](#). -UKAS accredited testing laboratory No.9341

The laboratories comply with all legislative requirements for practice and are assessed appropriately by external bodies such as the Human Tissue Authority (HTA), Medicines and Health Regulatory Agency (MHRA) and the Home Office for evidence of conformity.
